

ingredíssimo

Enhancing your dishes

# ingredíssimo

## WHAT IS INGREDÍSSIMO?

Ingredíssimo is a Foodíssimo's brand owned by Durania Group, a family bussines founded in 1974. Durania Group is recognised and focused on the food sector with a model based on 4 pillars: quality, honesty, innovation and empathy.

We are located in Barcelona (Catalonia, Spain), land of gastronomic tradition and cradle of molecular cuisine, and we have national and international distributors in 3 continents.

## WHO IS IT AIMED AT?

Our products are aimed at non-conformist professionals in the catering, bakery, pastry, and artisan ice cream sectors who are looking for new ways to surprise and build customer loyalty on a daily basis.

## WHAT DO WE OFFER?

A selection of natural ingredients designed to decorate or accompany, in order to help to create more attractive recipes. On the one hand, we find ingredients that are already known but very difficult to access in small formats. On the other hand, highly innovative ingredients, practically unique and only used until now by leading food industries.

The packaging used is reusable and produced with a modified atmosphere, which eliminates oxygen while maintaining intact the qualities of the ingredient.

Our delivery service is 24/48h within the peninsular territory.

## OVEN FRUIT

Pieces of fruit obtained by dehydration using ultra-fast concentration technology, from a mixture of fruit purees and other ingredients.

You can use it as an inclusion in bakery products, chocolates, topping for ice creams, cookies or dish decoration.

The pieces do not caramelise in the oven, thus maintain their initial characteristics. The fruit's own sour flavour stands out..

It allows to create new healthy products in a simple way.

Code	Description	Pack

## SPHERIFICATION

Products that allow any liquid food to be shaped into a sphere through a chemical process. The idea is to give the food or base a texture and appearance similar to egg yolk or caviar.

Code	Description	Pack
608708	Sodium alginate	Jar
608709	Calcium chloride	Jar
608715	Glucos	Jar

### SODIUM ALGINATE

400 gr 608708

### CALCIUM CHLORIDE

500 gr 608709

### GLUCO

400 gr 608715

## EMULSIFIER

Products that enable the formation and maintenance of an emulsion or homogeneous mixture of two liquids that are not miscible with each other, such as fats and water. They can also promote stable gaseous structures.

Code	Description	Pack
608710	Lecithin	Jar
608716	Hot Profoam	Bote
608717	Cold Profoam	Bote

## INULIN

used specially in pastry. High water retention capacity. Allows to control the water activity in recipes such as creamy desserts, mousses and compotes.

Code	Description	Pack
608713	Inulin	Jar

## MALTODEXTRIN

Starch-derived products with the ability to absorb liquids, turning them into powder.

Code	Description	Pack
656711	Malto	Tray

## ISOMALT

A sugar substitute which barely affects the glycemic load. Allows to create shiny, transparent and non-sticky decorations.

Code	Description	Pack
656714	Isomalt	Jar

## STARCHES AND FIBRES

It is very common to use a thickening product such as corn starch, but there are also other starches that allow different textures to be produced.

Code	Description	Pack
656712	Dextrin (Trisol)	Tray

ingredissimo  SEEDS AND CEREALS

Selected seeds and cereal flakes subjected to a cleaning process (microbiological and controlled for impurities).

Decoration for breads and pastries. Ideal seasoning for salads, decoration for tapas and other recipes.
